PROFILE

Results-driven Senior Digital Banner Developer with 9+ years of experience in developing, optimizing, and deploying HTML5, Rich Media, and Dynamic Creative Optimization (DCO) solutions across global digital advertising platforms. Proven expertise in JavaScript, HTML5, CSS3, creative automation, campaign delivery, and cross-platform ad technologies. Adept at translating complex creative requirements into high-performance, scalable, and user-centric digital experiences while ensuring quality, compliance, and operational excellence.

WORK EXPERIENCE

Hogarth Worldwide – Chennai (WPP Marketing)

Senior Front End Developer

APRIL 2019 - PRESENT

- Experienced in developing high-performance HTML5 static and dynamic display creatives for global brands including Dyson, Sage, Coca-Cola, IQOS, Castrol, Singtel, and TK Maxx. Specialized in building scalable Dynamic Creative Optimization (DCO) and Dynamic Content Serving (DCS) campaigns, delivering engaging user experiences across multiple digital advertising channels.
- Highly skilled in leveraging Adobe Animate, Google Web Designer, Hoxton, JavaScript, and GSAP to develop visually compelling, interactive, and performance-optimized creatives across multiple sizes and markets.

Paragon Digital Services – Dentsu Aegis Network

Associate Creative Developer

May 2017 – March 2018

- Developed high-quality, interactive HTML5 display banners using HTML5, CSS3, JavaScript, and GSAP, delivering engaging and performance-driven digital advertising solutions. Collaborated on campaigns for globally recognized brands including HSBC, Nespresso, and Walgreens, translating client requirements into visually compelling and technically optimized creatives.
- Ensured strict compliance with brand guidelines, platform specifications, and industry best practices while continuously optimizing banner performance, functionality, and user engagement across multiple digital advertising channels.

Paragon Digital Services – Dentsu Aegis Network

Ad Trafficker

May 2016 – May 2017

- Managed end-to-end ad trafficking, campaign setup, and delivery across multiple publisher platforms, ensuring seamless execution and compliance with campaign requirements. Optimized campaigns to improve click-through rates (CTR), conversions, and overall performance through continuous monitoring and data-driven adjustments. Collaborated on call-to-action (CTA) optimization and leveraged audience insights and social media trends to enhance reach, user interaction, and marketing outcomes.

AUTOMATION

- Workflow/Task Automation
- Chrome extensions/Task Automation
- Screen Capture Extension
